Lisa - I'll let EPA know and forward Dave's email below.

Thanks,
Jacalen

In addition to our "no", we would like EPA notified as well.

Hello All

I want to share a conversation I had with Thom Fischer at Electron today (I was there on a non-diversion structure matter).

Thom doesn't wish to store the collected field turf indefinitely. He would like to properly dispose of the field turf

they have collected (the turf that was released downstream) once he estimates the amount collected.. He proposes to calculate the amount (in sq.ft.) of material removed by weighing what they have removed downstream of the bypass channel, and comparing that to the weight of the material which they removed from the bypass channel itself (the square footage of which is known fairly specifically).
